Models of communication are conceptual models used to explain the human communication process. The first major model for communication was developed in 1948 by Claude Shannon and published with an introduction by Warren Weaver for Bell Laboratories. Following the basic concept, communication is the process of sending and receiving messages or transferring information from one part to another. In 1960, David Berlo expanded the linear transmission model with the sender-message-channel-receiver mod

~~Models of communication - Wikipedia~~

A model is a graphic representation designed to explain the way a variable works. It is a pattern, plan, representation, or description designed to show the structure or workings of an object, system, or concept. A model of communication offers a convenient way to think about it by providing a graphical checklist of its various elements.
