"Built on her wildly popular Modern Love column, 'When a Couch is More Than a Couch' (9/23/2016), a breathtaking memoir of living meaningfully with 'death in the room' by the 38 year old great-great-great granddaughter of Ralph Waldo Emerson, mother to two young boys, wife of 16 years, after her terminal cancer diagnosis"--

A Publishers Weekly Best Book One of the New York Public Library's "25 Books to Remember" for 1999 Homosexuality in its myriad forms has been scientifically documented in more than 450 species of mammals, birds, reptiles, insects, and other animals worldwide. Biological Exuberance is the first comprehensive account of the subject, bringing together accurate, accessible, and nonsensationalized information. Drawing upon a rich body of zoological research spanning more than two centuries, Bruce Bagemihl shows that animals engage in all types of nonreproductive sexual behavior. Sexual and gender expression in the animal world displays exuberant variety, including same-sex courtship, pair-bonding, sex, and co-parenting—even instances of lifelong homosexual bonding in species that do not have lifelong heterosexual bonding. Part 1, "A Polysexual, Polygendered World," begins with a survey of homosexuality, transgender, and nonreproductive heterosexuality in animals and then delves into the broader implications of these findings, including a valuable perspective on human diversity. Bagemihl also examines the hidden assumptions behind the way biologists look at natural systems and suggests a fresh perspective based on the synthesis of contemporary scientific insights with traditional knowledge from indigenous cultures. Part 2, "A Wondrous Bestiary," profiles more than 190 species in which scientific observers have noted homosexual or transgender behavior. Each profile is a verbal and visual "snapshot" of one or more closely related bird or mammal species, containing all the documentation required to support the author's often controversial conclusions. Lavishly illustrated and meticulously researched, filled with fascinating facts and astonishing descriptions of animal behavior, Biological Exuberance is a landmark book that will change forever how we look at nature.

Breastfeeding is a biocultural phenomenon: not only is it a biological process, but it is also a culturally determined behavior. As such, it has important implications for understanding the past, present, and future condition of our species. In general, scholars have emphasized either the biological or the cultural aspects of breastfeeding, but not both. As biological anthropologists the editors of this volume feel that an evolutionary approach combining both aspects is essential. One of the goals of their book is to incorporate data from diverse fields to present a more holistic view of breastfeeding, through the inclusion of research from a number of different disciplines, including biological and social/cultural anthropology, nutrition, and medicine. The resulting book, presenting the complexity of the issues surrounding very basic decisions about infant nutrition, will fill a void in the existing literature on breastfeeding.

Rifaximin is a semisynthetic rifamycin which is not absorbed from the gastrointestinal tract. It has been available in Europe and other countries for several years, and has recently been approved for treatment of traveler's diarrhea in the United States. Because of its broad spectrum of antimicrobial activity, rifaximin has been used with success in the treatment of infectious diarrhea, hepatic encephalopathy, small intestinal bacterial overgrowth, inflammatory bowel disease, and colonic diverticular disease. Potential indications include the irritable bowel syndrome and chronic constipation, Clostridium difficile infection and bowel preparation before colorectal surgery. In this publication both the present and future clinical use of rifaximin as well as the pharmacology behind it are extensively reviewed. Compiling the latest information on this remarkably active antibacterial agent, it will be an essential resource for infectiologists, gastroenterologists, and digestive surgeons alike.

Setiap pasangan punya cerita masing-masing, kadang manis, kadang juga pahit. Enam tahun setelah Divortiare dan dua tahun setelah Twivortiare, Alexandra dan Beno kembali hadir melalui akun Twitter @alexandrarheaw. Melalui buku ini, kita kembali diajak Ô mengintip Ô kehidupan mereka sehari-hari, pemikiran Alexandra yang witty dan selalu apa adanya, bahkan merasakan langsung interaksi antar karakter-karakter yang diceritakannya. Membaca Twivortiare 2 seperti mendengarkan sahabat sendiri bercerita tentang manis dan pahitnya hidup, tentang pilihan, kesalahan masa lalu, dan tentang makna sesungguhnya dari kesempatan kedua.

The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken in 2016 by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

In recent years, gap junction research in the cardiovascular system has considerably improved the understanding of cardiac function and the vasculature in health and disease. The present book focuses on the communication of intercellular gap junctions in
